CAPRILAC MILK

Product Description:

Caprilac is an instant milk replacer designed for goat kids. Based on high quality (skim & whey) protein with natural immunoglobulins..

Mixing Rate:

Mix **Caprilac** at a rate of 150 grams per litre of water.(equivalent to 12.5% dry matter)

Add powder to approx one third of warm (38°C maximum). Mix and make up the required volume with warm water.

For detailed feeding instructions see leaflet PMR 269 or bag label.

Typical Analysis:

Crude Protein	25.00%	Vitamin A	30,000 iu/kg
Oil (Method B)	24.00%	Vitamin D3	7,500 iu/kg
Ash	6.00%	Vitamin E	100 iu/kg
Crude Fibre	0.01%	Vitamin K	2 iu/kg
Moisture	3.50%	Vitamin C	50 mg/kg
Digestible Energy	21.50 MJ/kg	plus full compliment of B Group Vitamins	
Calcium	0.90%		
Phosphorus	0.70%		
Sodium	0.40%		

Nutritional Properties:

- High quality protein for easier digestion.
- Low temperature ADMI Extra skim used resulting in less heat damage to protein.
- Low mineral content reducing risk of scouring.
- High immunoglobulin level for improved health.
- Instantised product for improved 'wettability' and mixing into solution.
- Oils and fats homogenised with milk protein prior to spray drying to improve emulsification, digestion and absorption.

Ingredients:

Instantised Spray Dried Fat Filled Milk, Instantised Spray Dried Skim Milk, Spray Dried Milk Albumin, Instantised Spray Dried Fat Filled whey, Emulsifiers, Gelatinised Starch, Mineral, Vitamins, Flavour, Antioxidants BHT .

Bacteriology:

Total Viable Count (30°C-48hrs)	- < 100,000 per gram
Coliforms	- < 100 per gram
E. Coli	- < 20 per gram
Faecal Streptococci	- < 100 per gram
Salmonella	- none found in 50 grams

Packaging:

10kg and 25kg two ply paper bag plus polythene liner.

Special Note:

Caprilac has been designed to match natural goats milk as closely as possible and to help enhance rapid bone growth and muscle development.
