

<b>Commercial product name:</b>		<b>Candelilla Wax 2039P</b>	Date: 2007-04-18 Edition 03
<b>9.</b>	<b>Physical and chemical Properties</b>		
	Form:	solid, powder	
	Colour	light yellow	
	Odour	faint	
	Melting point	67 – 73 °C	
	Boiling range	not determined	
	Flash point	above 200 °C	DIN / ISO 2592
	Ignition point	above 200 °C	DIN 51794
	Vapour pressure	not applicable	
	Density	(20 °C) 0,95 – 1,00 g/cm <sup>3</sup>	DIN 53479
	Solubility in water (20°C)	insoluble	
	pH - value	not applicable	
<b>10.</b>	<b>Stability and Reactivity</b>		
	No specific dangerous reactions known		
<b>11.</b>	<b>Toxicology Information</b>		
	No data available		
<b>12.</b>	<b>Ecological Effects</b>		
	Waste water can be mechanically cleaned up Elimination test: is not applicable due to the insolubility of the wax in water		
<b>13.</b>	<b>Disposal Considerations</b>		
	Dispose the waste as non hazardous organic solid in accordance with local regulations European waste key: 04 02 10		
<b>14.</b>	<b>Transport Information</b>		
	ADR: No dangerous material. US DOT hazard class: not regulated IMDG/IATA: not classified as dangerous goods		
<b>15.</b>	<b>Regulatory Information</b>		
	Labelling (EC):	not necessary	
	Symbol:	not applicable	
	R - Sets:	not applicable	
	S - Sets:	not applicable	
<b>16.</b>	<b>Other Information</b>		
	This document describes a product range.
