IFRA Statement

We hereby confirm that all fragrances (fragrance oils) manufactured for The Soap Kitchen and that, in turn are supplied to our customers, conform to the International Fragrance Association guidelines.

For recommended maximum safe inclusion levels in finished products, please refer to our MSDS sheets where maximum recommended inclusion levels for each component are clearly stated. Our general advice, to ensure fragrance inclusion levels do not exceed the chemical tolerance of the finished products themselves, is that a maximum overall 3% is applied to rinse-off products and a maximum overall 1% is applied to leave-on products.

For further help and assistance please contact us at the above address.

Yours faithfully
