POUR

Our new Crystal OS is a Vegetable based melt and pour soap base, made using **Natural Oatmeal and Shea Butter**, PEG free and Paraben free this soap base gives fantastic skin feel and combines exfoliating oatmeal with enriching Shea butter.

Ideal for manufacturers large or small, simply melt, mix, pour and create.

- > Vegetable Based
- > Natural Exfoliating
- > Anti-inflammatory
- > Helps remove dead skin cells.
- > Helps ease acne, eczema, rosacea and rashes.
- > Suspending Formulation
- > Enriched with Natural Shea Butter
- > High in vitamin E, D, & Provitamin A
- > Fantastic Skin Feel
- > Low Colour - Low Odour
- > High Foaming Lather
- > Excellent Skin Feel - High Glycerin

MADE IN ENGLAND

GUIDE RECIPE

Here we show you how to create a simple **Crystal Oatmeal and Shea Butter Soap**.

This new base also has a fantastic suspending formulation, meaning any additives you decide to put in your soap won't sink to the bottom or float to the top! Unlike other suspending soaps, you won't need to keep mixing your soap as it cools in order to keep your additives where you want them.

These "confetti" soap pieces made earlier stayed right where we placed them.

We made our own custom-sized inserts by first melting down soap base and coloring it pink.

Open the packaging. We used the new 500G Microwavable pack, easy to use. The base smells wonderful straight from the tub - a clean smell with just a hint of oatmeal.

Melt - Place your tub directly into the microwave (as shown below) and begin the melting process. I would recommend melting your base in 15 second intervals, stirring periodically, for approximately three minutes depending on level of heat your microwave uses.

Mix - Once your base is melted add your fragrance, and any additional additives.

Pour - Next just pour your soap base out into your moulds and shapes. If you find the top of your loaf has tiny air bubbles, a quick spritz of rubbing alcohol is all you need to get rid of them.

Create - Once your loaf has set fully approx. 4 hours, you can use a soap cutter (I used a crinkle soap cutter) to slice your mold into individual bars.

PACKAGING

Crystal Melt & Pour soap bases are available in a range of packaging, just pick a size that suits your needs:

- > 1KG Tray / 2LB
 - > 11.5KG Box / 25LB
-
